Superstar life redeem codes

So you want to be a superstar? Now that you can easily become one of Superstar Life, the addictive simulation game for iPhone and iPad gives you the opportunity to become one of the most popular people in the world. I'm here to share with you some Superstar Life cheats: tips and basically a tutorial to get you out there faster than the rest because, like in real life, becoming a top celebrity isn't easy, even in the game! So let's check out all the details about the game in our superstar life cheats article below filled with tips and tricks for the game. 1. How to access Kelly One of the biggest issues in the people that appears to be an obstacle is how to access Kelly early when you have that mission request. To do that, tap the Social tab in the Play menu, register your name first, and then you'll not only have the opportunity to invite more friends to the game, but you'll also have the option to visit Kelly. Mission accomplished! 2. Focus on completing the Play Button task and check out the missions - each of the three girls will have something for you. I would suggest focusing on tasks from Jennifer first since they deal with your career and get you some money. Amanda comes next and has the most time-consuming tasks, and eventually goes for Kelly which will improve your style a lot (but her tasks often require you to spend some money on your shopping spree). 3. How to increase your style I have not been able to find where your exact style number is displayed, but the idea is that you need high style items in all areas to get better. You buy these items from the mall, and the idea is to buy only the best in each category: skirts, tops, skirts and shoes, then all the accessories. Although it may not look great, you can wear a dress, a top and skirt/pants and that's what you should do to maximize your style level. 4. What job/career to choose Honestly, there is not a big difference here and all careers are equal in terms of rewards. So just choose the one that suits you best and follow your dreams! 5. Visit Carnival There are several games that you can play at Carnival once a day. Make sure you always play them and try to complete missions for each game to get the maximum amount of tickets. Then you can redeem your tickets during the festival for some really great items that will increase your style rating a lot! 6. Get a great review in your career Every time you visit your office (aka Careers), you will be judged based on your style clock. The idea is to get great rewards for some goodies reputation. So invest in designer goods and increase your style rating on all levels to get there. Basically, the more money you spend on an items, the better it is for your style and social status. 7. How to successfully date in superstar life There are quite a lot of handsome guys so far in this game, and you have to work your way up to them, just like a career. First you will have to go on a first date with them in the nightclub and, if successful (you have 15 minutes to reach your goal), they will become your boyfriend and you can date them at the café. To be successful with your first date, you need to find the interests of your partner and talk to them about that too. For example, Brandon likes Sports and Music - choose these topics and he will be yours right away. Then move to the café for a second date (then more) and you will get nice gifts from filling the love meter. To do so, you will need a lot of energy available – and I would suggest performing the 1 act because they also give you social bubbles. 8. Search buildings Whenever you have some free energy (after completing the day and work) go on a search spree. Just tap the buildings in the city and select the Search option; there are different items found and are really needed to complete tasks and challenges. I'm not sure if the buildings are specific to specific items, I come across them all going my whole energy. 9. What is a luxury apartment and when to move to I think you should move to Luxury apartment as soon as you have 2,500 available. There will be a new thing under construction once you move and you will love it! This will be, for now, our tips and tricks for Superstar Life. If you have additional questions or suggestions, let us know by commenting below. Superstar Life is a new game for the iOS platform where your goal is to become a superstar (of course).
